

## **FINANCIAL POLICY**

**\*\* Try to encourage consults for wisdom teeth\*\* With consults we can determine how much pt. OOP will be. Without a consult I can only give an estimate on the OOP expense.**

**Ins. DOES NOT guarantee quotes unless pre-treatment is sent to them in writing!!**

### **OUT OF NETWORK :**

**Pt. is to pay \$300.00 day of surgery.**

**Balance is due w/in 90days regardless of insurance being outstanding.**

### **IN NETWORK w/ CONSULT:**

**If EOB has been sent back from Ins. stating benefits I will have Pt. portion figured out and it will be stapled to the pre treatment in the file.**

**In this case the Pt. is responsible for the amount stated and that amount is due IN FULL the day of surgery!**

**If EOB is NOT back from Ins. I will have Pt. portion figured out on a tape and will attach it to the Med Hx forms.**

**Balance is due w/in 90 days regardless of insurance being outstanding.**

### **IN NETWORK w/OUT CONSULT:**

**Pt. is responsible for their "co-pay" (20%) etc. the day of surgery. I will not know what their portion is until Dr. Jones puts charges in. I can only give an estimate of charges to the patient prior to surgery. Again Ins. DOES NOT guarantee quotes unless pre treatment is done and in writing!**

**Balance is due w/in 90 days regardless of insurance being outstanding.**
